

DC-System

Expand your expectations with our DC-System

DC-System

Expand your expectations with our DC-System

DC-System is a free-standing structure providing premium support for your deeper work surfaces, shelves and storage units.

Storage cabinets are available in suspended units with an optional sliding feature to provide rapid relocation capabilities.

Reagent shelf or Service bridges can be used to provide chases for major services such as water, gas, vacuum, electricity or data outlets above the work surface.

This system comes with elegant Cantilevered design capable of carrying the worktop up to **750mm** deep for wall benches and up to **1500mm** for Island benches, working heights can be **750mm** or **900mm** to adapt to personnel, equipment and procedures inside your lab.

Bench frames are constructed from heavy duty steel tubes.

DC-System is an advancement of C-System provides better flexibility and features

Wall Bench

Product Code	Width (W)	Bench Height (H)		Over All Size (mm) W x WD	Structures	Side View
		900mm	750mm
